

EczemEase[®]

Management of Atopic Dermatitis

NO STEROIDS

FREE FROM HEAVY METALS

"Atopic Dermatitis ranked first among common skin diseases with respect to disability-adjusted life-years and years lived with a disease."

— as per World Health Organization Report on 2010
Global Burden of Disease survey

One primary reason for atopic dermatitis is a genetic mutation in the filaggrin (FLG) gene. Filaggrin is a protein essential for maintaining the skin's barrier function. When this gene is mutated:

The skin barrier becomes weak and less effective at retaining moisture. It allows allergens, irritants, and microbes to penetrate more easily, triggering an immune response. This impaired skin barrier leads to dryness, itching, and inflammation, which are characteristic of atopic dermatitis. Environmental factors, such as allergens or harsh soaps, can exacerbate the condition in individuals predisposed by this genetic mutation.

INTRODUCING EczemEase®

Advance Formula for Atopic Dermatitis Management

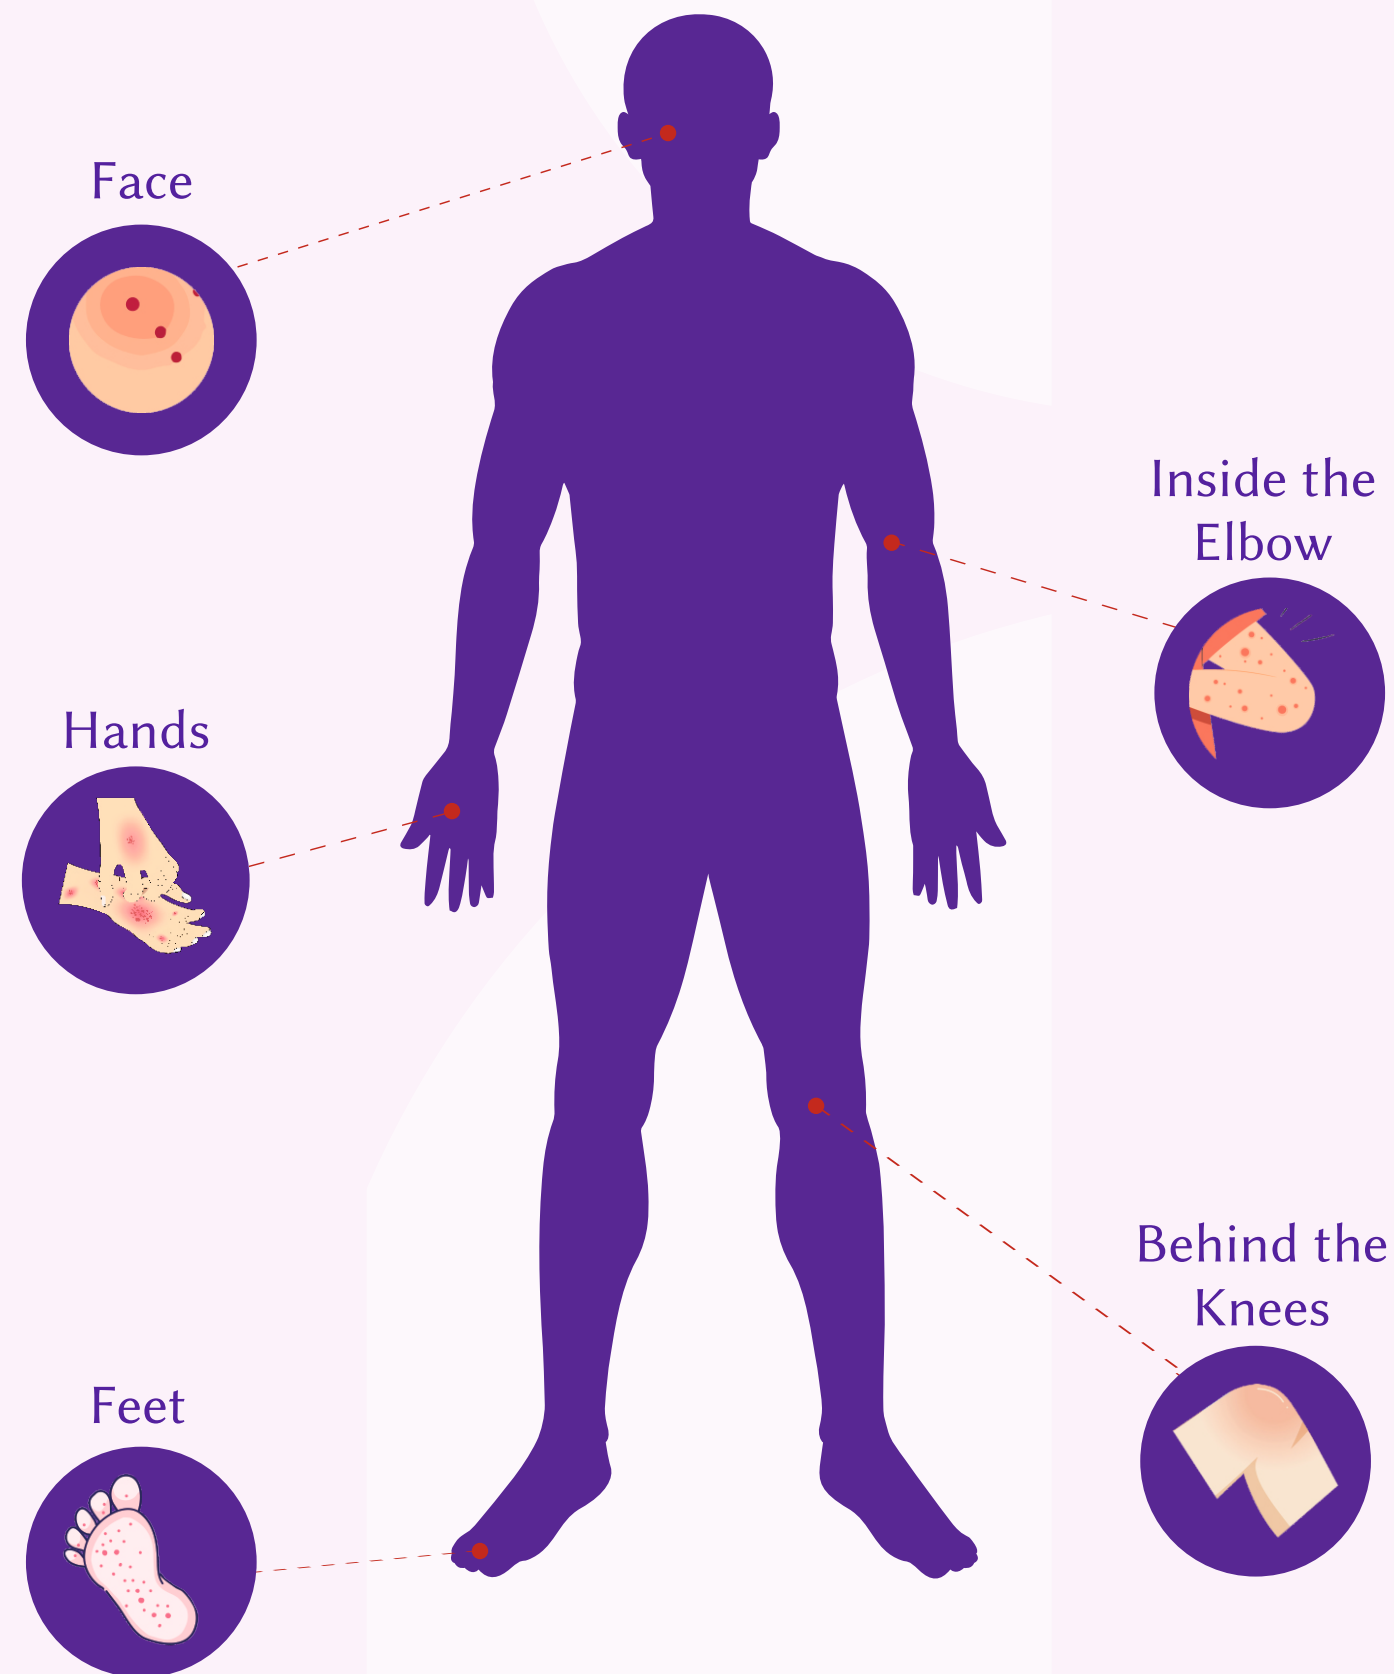

Atopic Dermatitis can be a persistent and uncomfortable condition, with symptoms varying in intensity from person to person. It often leads to dry, itchy, and inflamed skin, disrupting daily life and overall well-being. Proper management is essential to reduce flare-ups and maintain healthy skin.

EczemEase® is a specialized topical cream designed to provide deep hydration and targeted relief for Atopic Dermatitis. It forms a protective barrier on the skin, helping to lock in moisture, soothe irritation, and support long-term skin health.

Your Own Skin.**

Signs and symptoms of Atopic Dermatitis

BENEFITS OF USING EczemEASE®

Free From Steroids¹
Does not contain corticosteroids,
safe for long-term use.

Heavy Metal Free⁴
Free from heavy metals such as
lead, mercury, cadmium, and arsenic,
ensuring safety and health compliance.

- 1 Deep Hydration**
 - Helps restore moisture to dry and irritated skin, preventing excessive flaking and discomfort.
- 2 Soothes Itching & Irritation**
 - Reduces persistent itchiness, allowing for greater comfort and preventing further skin damage from scratching.
- 3 Reduces Inflammation**
 - Helps calm redness, swelling, and flare-ups, promoting a more even skin tone.
- 4 Strengthens Skin Barrier**
 - Enhances the skin's natural protective layer, preventing allergens and irritants from triggering reactions.
- 5 Prevents Flare-Ups**
 - Regular use supports long-term skin health, reducing the frequency and severity of outbreaks.
- 6 Supports Skin Healing**
 - Aids in the recovery of damaged skin, promoting faster repair and regeneration.
- 7 Lightweight & Non-Greasy**
 - Absorbs easily into the skin without leaving a heavy or oily residue, making it suitable for daily use.
- 8 Gentle & Suitable for Sensitive Skin**
 - Formulated to be mild and soothing, making it ideal for individuals with sensitive or eczema-prone skin.

Free From Allergens²
No rashes or irritation

PH Value³
Balanced pH makes skin friendly suitable
for all skin types, reducing irritation, dryness,
and Inflammation. Formaldehyde (mg/kg)
– Does not cause dizziness, irritation, or
discomfort.

How to apply

EczemEase®

Management of Atopic Dermatitis

APPLICATION

Night Application: Apply the cream to the affected area, gently spreading it evenly with your fingertip.

Morning Application: Reapply the cream to the same area as applied the previous night. Wait 30 minutes before bathing.

Note: It should only cover the affected area. Allow 30 minutes to dry before going to bed.

SAFETY CAUTION

- Conduct a patch test before full application.
- Keep out of reach of children.
- Do not use if irritation, redness, or itching occurs or consult the Doctor.
- Do not apply any other topical cream while using this cream.
- Store in a cool, dry place away from direct sunlight.

Warning: For external use only.

EczemEase®

Testimonials

"I've struggled with atopic dermatitis for years. This cream has helped keep my skin moisturized and has reduced irritation over time."

— M / 40 years

"Most creams make my skin burn, but EcxemEase is soothing. It keeps my skin hydrated without causing irritation."

— F / 28 years

"After using EcxemEase for a few weeks, my skin feels less dry, and the itching has reduced. It absorbs well and doesn't feel heavy."

— F / 34 years

REAL USERS, REAL RESULTS

Clinical data confirm improvements in skin irritation, dryness, itching and inflammation with an immediate effect.
